**Re: Letter of Interest**

Office NPI: 1770942625 Tax ID: 47-4039043

This letter is to notify Medical Health Care facilities that Sonotec Imaging is interested in joining your patient care team.

What makes us different and unique in Riverside county:

- We are the only local imaging center providing both mobile and three locations to serve our community, which allows you to utilize our services to cover any area in Riverside County. This is beneficial for both high population areas and areas short of servicing facilities.
- **STAT orders are welcomed with referral and can be accommodated with same day appointments and a 1 hour turnaround time.**
- With the population growth in the Valley, we understand that Physicians have a high demand for these procedures and are experiencing longer than normal scheduling wait times. We typically offer same day or next day appointments for all studies!
- **Sonotec Imaging provides Echocardiograms read by our expert Cardiologist and followed with professional and expedited reports within 3 to 5 business days..**
- We offer a secure provider portal at no cost to you, where you can view all of your patients' reports and the images associated with them.
- Sonotec Imaging is dedicated to offering the lowest cash-pay rates in the entire Valley for all ultrasound exams.
- Sonotec Imaging can provide bedside services to your non-ambulatory patients.
- Required 24 Hour notice with referral for Mobile Service..

I have attached our Physician referral form that includes all the procedures we have to offer and a list of insurances that we currently accept. Looking forward to speaking with you and joining your patient care team! If you have any questions please don't hesitate to contact me.

Kind regards,

Allyson Ruiz
